

Muhammad Ikram UI Haq

Mobile Engineer | iOS and Android | Flutter and Native iOS

Islamabad, Pakistan | +92 309 525 1250 | emikramulhaq@gmail.com

LinkedIn | Project portfolio on GitHub | Available for remote work

Professional profile

Mobile engineer and team lead with 6+ years of experience across Flutter, native iOS, and production application delivery. Hands-on experience with Swift, UIKit, iOS concurrency, secure API integrations, and App Store workflows. Contributed to a UK healthcare application serving NHS patients and currently lead Carbee's Flutter Web team while supporting mobile delivery. Apply AI-agent-assisted and spec-driven development across planning, implementation, testing, and review.

Technical skills

Native iOS: Swift, UIKit, CoreData, UserDefaults, GCD, async/await, APNs, App Store deployment and maintenance.

Cross-platform: Flutter, Dart, BLoC/Cubit, responsive UI, asynchronous programming and streams.

Integration: REST APIs, JSON modeling, Firebase, FCM, network interceptors, encryption, centralized error handling, Sqflite and SharedPreferences.

Architecture and delivery: Clean Architecture, MVVM, SOLID, reusable packages, GitHub Actions, CI/CD, Jira, Kanban, code reviews and mentoring.

AI-related work: AI-assisted and spec-driven development; project experience with avatar chat and Google ML Kit recognition and translation.

Professional experience

Techtronix | Team Lead Flutter Developer | Mar 2024 – Present

- Lead Carbee's Flutter Web team, with primary ownership of admin and dealership portals and collaboration across mobile, backend, QA, and product teams.
- Build reusable foundations for secure networking, interceptors, centralized errors, request/response tracing, and encryption handling.
- Own CI/CD and release workflows, including GitHub–Jira automation, QA handoffs, validation, and development, QA, staging, and production environments.
- Support Android/iOS product delivery, review code, mentor engineers, and apply AI-agent-assisted workflows with structured requirements and implementation plans.

AT-Tech | Software Engineer, Flutter and Native iOS | Jun 2022 – Mar 2024

- Enhanced production native-iOS features and modules for Dr.iQ, a UK digital healthcare product serving NHS patients, working alongside the iOS team.
- Contributed to a major codebase refactor for maintainable architecture, alongside Firebase, persistence, notifications, and iOS deployment workflows.
- Led the PSX Ascend migration initiative from an existing native iOS application to Flutter for Android and iOS, retaining core product functionality.

Earlier experience

Heuristify | Flutter Developer | Jan 2022 – Jun 2022

- Led Invoice Labs redevelopment from native Android to Flutter for Android, iOS, and Linux; implemented local persistence and delivered a stable Google Play release.
- Mentored product-team members and interns through implementation and code review.

SBS | Associate Software Engineer | Nov 2020 – Jan 2022

- Developed and deployed 8+ cross-platform Android/iOS applications.
- Enhanced LSUK with travel-distance calculation, UI improvements, feature delivery, and architecture cleanup for its UK interpreter workflows.

Independent | Freelance Mobile App Developer | Aug 2019 – Sep 2020

Delivered mobile development work for Android and iOS.

Selected mobile and AI-related products

Dr.iQ | Native iOS healthcare

Production iOS engineering and architecture refactoring for online healthcare consultations and patient services. View on the App Store.

Carpool | Independent Flutter and Android product

Independently developed and maintain a live local carpooling product. Use it to apply AI-agent-assisted, spec-driven development from specification and architecture through release and iteration. View on Google Play.

Afterlife AI and Cam Translator | AI-related mobile experience

Worked on Afterlife AI, an avatar creation and chat application, and Cam Translator, a Google ML Kit-based camera application for text/object recognition and translation.

My Treats and LSUK | Released mobile applications

Restaurant ordering and delivery applications for My Treats in Bristol, and interpreter workflows for LSUK. My Treats on the App Store · LSUK on the App Store.

Education

Bachelor of Computer Science

Federal Urdu University, Islamabad | 2016–2020 | CGPA 3.59
